

Workshop on Structured Thinking

Topic :	Workshop on Structured Thinking
Date of event :	September 17 , 2011
Aim of the Event	<ul style="list-style-type: none">• To increase and strengthen social interactions among students• To increase awareness of and garner support for the Mentorship Program as a viable strategy towards building capacity within the profession• Increase in morale and motivation of the students• Greater productivity in whatever tasks the students are assigned• Discovery of hidden talent of the student• To enable skills to be passed on in the workplace by experienced, highly competent staff to others who need to acquire specified skills
Description of the event	<p>The presentation was conducted by Mr. Harman Singh Arora and Mr. Amit Gupta, IIM (Lucknow) alumnus. They highlighted the importance of structured systems in order to solve any business problem .The session is divided into different parts</p> <ol style="list-style-type: none">Question –AnswerTips on structuring a problemCase

They started the session by asking a leading question to the audience – “How many barbers are there in Delhi?” After getting response from the audience, they shared as to how students can answer such vague questions in an interview with the help of structured thinking .The presenters introduced the concept of MECE-Mutually Exclusive, Collectively Exhaustive.

Their main focus was on making the audience think in a structured manner and lead them towards answering the questions in a logical manner instead of random, unthought-of answers.
