Certified Institute

### Work Shop and Mock Interview Session

<b>Topic :</b>	Workshop on WEB Designing Tools and HR Mock Interview for students of MCA V Semester
<b>Date of event :</b>	August 26, 2011
<b>Aim of the Event</b>	This workshop aimed at grooming the students for the interview of the company - <b>RESEARCH ENDEVOUR</b> . Recognizing the need for overall development in the personality of students, RDIAS arranged this workshop for the students of MCA V semester in order to groom their WEB DESIGNING credibility and personal interview skills.
<b>Description of the event</b>	<p>The Workshop was taken by our in house faculty specializing in Website Designing. The topics covered in the workshop included: HTML, DHTML, Advanced HTML, CSS, VB Script and Java Scripts.</p> <p>The speaker spoke passionately about the topic and covered areas such as:</p> <ul style="list-style-type: none"><li>• It is a platform independent language that can be used on any platform such as Windows, Linux, Macintosh, and so on. To display a document in web it is essential to mark-up the different elements (headings, paragraphs, tables, and so on) of the document with the HTML tags. HTML also provides tags to make the document look attractive using graphics, font size and colors. Users can make a link to the other documents or the different sections of the same document by creating Hypertext Links also known as Hyperlinks.</li><li>• DHTML is the merging of HTML and JavaScript. With DHTML we can alter the HTML page while it is being displayed, and provide animated content to the viewer.</li></ul>

In the interview session students were asked questions related to the career objective, achievements and also general questions which would help the faculty to understand the personality, and preferences of the students.

Students were evaluated on behavior competencies which include parameters like, communication skills, team playing abilities, body language , physical appearance and self development & initiatives etc. The main idea behind this session was to help the students to get an idea of the HR interview session. Visualize their career path and instill in them a strong sense of direction and focus related to their work.

The students were given individual feedback related to their performance in the interview and suggestions on to how to answer various questions in the actual interview.

It is hoped that the students recognize the worth of all the efforts being put in for their future and that they dwell upon the areas in which they need improvement.
