Session on “Presentations and Online Test on DBMS”

Topic :	Presentations and Online Test on DBMS for students of MCA IV
Date of event :	1 April, 2011
Aim of the Event	<p>In recent years it has become a common practice for employers to ask job applicants to deliver presentations as a part of the evaluation procedure. Many a times the theme and time duration for the presentation are allotted to the candidate and he or she is expected to rock the stage and the audience at that juncture.</p> <p>The idea behind this effort is to judge the candidates abilities in terms of knowledge and delivery of the same. This is exactly what we prepare our students for, at RDIAS.</p>
Description of the event:	<p>Regarding presentations, students were judged on following parameters:</p> <ul style="list-style-type: none">• Communication Skills• Organization of Presentation• Topic Knowledge• Creativity• Summarization• Physical Appearance and Stage Presence <p>11 groups of students were given presentations on different</p>

company profiles like Aricent, Telcordia, Sapient, Nagarro, Patni Computers and more. After student's presentation, feedback was given to them by their fellow mates and faculty members to further enhance their skills.

The prime concern for any software technical person should be to master their programming language and backend part i.e. DBMS. This session also consisted of a test on Database Management System so as to keep them in touch with the conceptual knowledge.

After all, the personality of a person is formed not just by concepts but the delivery of the same as well. It is aptly said that:

"Knowledge, without the ability to impart the same is like a lamp without fuel!"
