

### Session on Extempore

Topic :	Session on Extempore
Date of event :	8 February, 2011
Aim of the Event	<p>The aim of this session was to improve the public speaking skills of students and also to encourage originality and creativity in on the spot speaking.</p> <p>As a part of this initiative, a session was organized for the students of MCA IV for enhancing their soft skills.</p>
Description of the event	<p>The students had to speak for a minute each and before this they were asked to pick a chit which would have a topic on it, the time given to them for thinking on the topic was three minutes. This activity is important for the students of programming because along with analytical skills is the requirement of quick thinking and good expressions.</p> <p>Some of the topics on which the students spoke were: Globalization vs. Nationalism, Jalianwala Bagh, Do Beauty &amp; Brains Go Together and many more.</p> <p>The judging criterion for them was body language, general awareness, creativity, analytical ability &amp; communication skills. The students were given individual feedback and then asked by the trainers to improve themselves in those areas particularly. Students were asked to prepare for extempore adequately, by speaking aloud, either in front of a mirror or even without one. The idea was to tell the students that they should be able to speak, with a fair degree of fluency, for about a minute on any topic.</p> <p>After all practice, practice and more practice makes everyone perfect!</p>
