

# RUKMINI DEVI

## Institute of Advanced Studies

App. by AICTE, HRD Ministry, Govt. of India & Aff. to G.G.S. I.P. University, Delhi

- Category 'A' Institute
- High Grading 81.7% by Joint Assessment Committee of GGSIPU & DHE, Govt. of NCT of Delhi.

Member of AMDISA. Member of AIMA

An ISO 9001 : 2008 Certified Institute

### “Global Warming Awareness: A Social Club Activity”

<b>Topic :</b>	Global Warming Awareness Month by Social Club, RDIAS
<b>Date of event :</b>	April ,2011
<b>Aim of the Event :</b>	The importance of a natural environment required in maintaining ecological balance, is well known. Having already set the precedent of being a member of the Eco Club, RDIAS took yet another step in the direction of creating awareness among its students and community at a large.
<b>Event Report in brief:</b>	In the past few years, the world has experienced devastating natural disasters on a level that hasn't been seen for decades. There is much speculation that these especially strong phenomena are due to global climate change, brought on by Global Warming. The term 'Global Warming' refers to the rising temperature of the earth due to an increased amount of greenhouse gases. The scientific community as a whole has determined through all research that global warming is a problem caused by human influence. The burning of fossil fuels emits greenhouse gases such as carbon dioxide into the atmosphere. These gases trap the heat from the sun and cause the temperature of our planet to rise. This warming of the globe could potentially alter sea level, crop yield and rain fall, and could increase the intensity and frequency of natural disasters such as tornadoes, hurricanes, floods, and droughts.

Students of all courses came collectively and participated in this event with a great sense of involvement by preparing posters on this theme. Its well said that:

*"To accomplish great things we must not only act, but also dream; not only plan but also believe."*

*-Anatole France*

Social Club ,RDIAS firmly believes in and also executes the same.
